### EDUCATION

#### Google IT Support Certificate •

Gained hands-on experience in troubleshooting and resolving common IT issues, setting up and maintaining hardware and software, and configuring network environments. Studied fundamentals of operating systems, networking, and system administration. Developed expertise in managing user permissions, securing devices, and optimizing system performance using industry best practices..

#### Google Cybersecurity Certificate •

Specialized in identifying and mitigating cybersecurity risks, threats, and vulnerabilities. Developed skills in Python scripting, Linux systems, and SQL for data analysis. Acquired proficiency in using Security Information Event Management (SIEM) tools, Intrusion Detection Systems (IDS), and packet sniffing techniques. Learned to apply the NIST cybersecurity framework for protecting networks, devices, and data from cyberattacks.

#### Google Project Management Certificate

Learned the principles and practices of project management, including Agile and Scrum methodologies. Gained expertise in managing projects from initiation to closure, with a focus on planning, scheduling, budgeting, and risk assessment. Developed strong stakeholder communication and organizational skills, enabling the successful coordination of teams and delivery of high-impact projects on time and within scope.

#### Microverse Full stack web development •

Embarked on an immersive journey at Microverse, delving deep into the realm of Full-stack Software Engineering. This comprehensive program covered a spectrum of skills, including robust training in Software Development methodologies, mastery of Redux.js for state management, proficiency in building dynamic user interfaces with React.js, and a solid foundation in crafting web applications using Ruby on Rails and Ruby.

### PROFESSIONAL EXPERIENCE

### **Construction Coordinator**, Marditech Ventures Limited (November 2024 - present )

At Marditech Ventures Limited, I ensure efficient resource management and security for all on-site materials and tools, focusing on inventory accuracy and risk mitigation. Key responsibilities include:

- 
- **Asset Management:** Tracking and recording daily material usage to prevent loss and maintain security.
  - **Audits & Monitoring:** Conducting regular audits to verify asset integrity and reduce vulnerabilities.
  - **Reporting:** Preparing detailed reports on resource use, supporting data-driven decision-making.
  - **Collaboration:** Coordinating with teams to ensure secure and efficient operations.
- 

This role has sharpened my organizational skills and attention to detail—essential qualities for cybersecurity.

### **Talent Acquisition Partner**, Remote Teams Philippines ( September 2024 - Present )

As a Talent Acquisition Partner for Remoat Teams, I manage and execute a referral program aimed at sourcing qualified candidates for fully remote transcription and editor roles.

- 
- Promoted and shared remote job opportunities across multiple social media platforms.
  - Facilitated the referral process by guiding candidates through applications and ensuring proper documentation.
  - Created and submitted engaging digital content to attract and qualify candidates.
  - Leveraged LinkedIn and personal networks to increase referral opportunities.
  - Monitored referral validity and tracked hiring status to ensure bonus eligibility.
  - Supported the talent acquisition team in meeting hiring goals by consistently referring qualified candidates.

### **IT Technician**, Hetroxity, Mombasa, Kenya

As a Freelance IT Technician, I diagnose and repair hardware and software issues on client desktops and laptops, and configure and troubleshoot home networks. I provide comprehensive technical support and advice to clients to enhance their IT infrastructure

- Diagnose and repair hardware and software issues on client desktops and laptops.
- Configure and troubleshoot home networks, including Wi-Fi setup and security.
- Provide technical support and advice to clients on improving their IT infrastructure.
- Perform routine maintenance to ensure optimal performance of client systems.

### **Mastercard Cyber Security Virtual Experience**, Forage

- Completed a job simulation where I served as an analyst on Mastercard's Security Awareness Team
- Helped identify and report security threats such as phishing
- Analyzed and identified which areas of the business needed more robust security training and implemented training courses and procedures for those teams

### **Office Assistant**, State Department for Youth Affairs and Creative Economy · Internship, Mombasa, Kenya

Summary of duties

- Managed daily office operations with minimal supervision, ensuring smooth functioning and efficiency.
- Facilitated access to learning opportunities offered by partnered organizations, empowering youths and increasing participation by 25%
- Ensured accuracy and completeness of loan applications for local citizens, resulting in a 45% improvement in database reliability through meticulous application processing..

- Streamlined data entry procedures for youth group loan applications, resulting in a 25% reduction in processing time; integrated data validation techniques to maintain data integrity and confidentiality standards at all

**Referee(s)**

**Md. Rhoda Kisunza**, Youth Officer ~ Uwezo Fund
